

I am listener of K-LOVE and I do not want to lose my ability to listen to K-LOVE because of LPFM. K-LOVE gives me a clear alternative to other music on Radio in the following ways:

- 1) Clean / Family Oriented Programming
- 2) Music for the whole family
- 3) Positive & Encouraging
- 4) Even my 2 year old can listen and not be afraid of language

If you were to allow LPFM to displace Local FM Translators, the listeners would not have a clear place to go and for the listeners to hear programming that we really do want to hear. I wish you would give ability for K-LOVE to purchase more signal strength so more people can have Positive and Encouraging Alternative the current Radio Programming. I live in NW Suburbs of Chicago and with THE FISH being sold, I see the importance to community. So FCC do not take away my K-LOVE.
